All of our make-up and tools go through a rigorous testing process in challenging, real-world situations, from the harsh conditions of a remote film location to the bright lights of Broadway. Through this trial by fire, we continue to perfect each product until we see consistently exceptional results. Only then, does it receive our "MUD-Certified" stamp of approval. It's all about honest performance.

We believe the true purpose of make-up is to correct, cover and conceal. From our award-winning mascara to our creamy foundations, luxurious lipsticks to our silky eye shadows, each of our distinctive products performs as it's meant to: precisely and beautifully.
