When we received the **Somme Institute 5-Step Regimen Mobile Travel Kit**, the cute packaging instantly caught our eye. What a perfect travel kit! But the question was, Is it true good to be true? Does the **Regimen** truly work? We had a trusted beauty-product-lover try it out to see. When we complimented her on her flawless skin a month later, she revealed her secret—the Somme Institute Kit! Read her review below to find out what she loved about the product.

"I just finished using the Somme Institute 5-Step Regimen Mobile Travel Kit, and in the month or so that I used it it transformed my skin! From the moment you use the nourishing cleanser, your skin feels softer. After the Transport (step two), which is a gentle exfoliant pad, you feel really refreshed. Then the Serum, with vitamin C, with the A-bomb moisturizer to follow, makes your skin feel very silky.

"After about two weeks, I noticed my skin really starting to transform. I didn't need to use any other anti-acne spot treatments (Retin-A, salicylic acid) that I normally use. This took care of that! Now my skins looks and feels better than ever. Usually I can achieve this effect if I eliminate all meat/coffee or am doing a cleanse ... but this time it was because of the product. I am hooked!"
